

## Blue Answers

- 1)  $\frac{17}{4}$  is an improper fraction and, when converted into a mixed number, it is  $4\frac{1}{4}$ , which is greater than  $3\frac{3}{4}$ .
- 2)
  - a) This is incorrect as it still includes an improper fraction. The answer should be  $2\frac{2}{8}$ .
  - b) This is incorrect as 12 thirds make four whole ones. The answer should be  $3\frac{2}{3}$ .
  - c) The fraction in the mixed number is incorrect. The answer should be  $3\frac{2}{5}$ .
