

Events and Emotions

Look at the passage below:

Then it *stopped*.
Then it *shouted*.
Then it stopped again.
The Earth *vanished*.
And then *came back*.
Then vanished
And then came back.
And then we stopped rolling.
And Earth was *gone*.
No-one said a word.

Can you uplevel (improve) the words in red. How does it affect the passage?
Does it improve it?

Now look at the events below. These are events that happened from just before take off to now.

I have started to complete the sheet by filling in the emotions Liam would have felt.

Can you complete the sheet so you have a list of events and emotions.

<u>Event</u>	<u>Emotion</u>
Last minute checks	Anticipation
Measuring heights	Reassurance
Strapping in	Nervous
Take off	
Deflating suits	
Pressing the black button	
Looking at Earth	
Pressing the buttons	
Spinning	

Organise them to create a list poem chronicling the emotions of the journey from start to finish. You can add or change the wording of the events if you like.

E.g. Nervously waiting
Anxiously soaring
