

Geocentric and Heliocentric

Colour in the solar systems to show the two different ideas. Can you remember who believed in the different versions of the universe?

This is the ----- view of the universe.

Label and colour the sun, Earth, moon and planets on the diagram...

This is the

view of the universe.

Label and colour the sun, Earth, moon and planets on the diagram...

Who thought this?

Draw them here and add some labels explaining who they were...
