

Thursday 7th January

English

Read or listen to a parent read Chapters 5 and 6 of the book. Complete the vocabulary sheet. Imagine you are Liam's dad - How would you be feeling? What would he be concerned about?

Now think about the Draxworld game - What is it? Why does Liam like it so much? Look at the computer game covers on the sheets. How are they designed? What makes a good cover?

Choose 3 of the games and complete the Genre study sheet. What do they all have in common? How do they appeal to you?

Ext: If you would like to, have a go at designing your own computer game cover. Label your cover to describe/explain the features you have chosen.

Maths

Today we will be learning/revising how to use the column method to multiply two digit numbers. By now you should be confident using the grid method but if you need more complete a few using this method first.

Begin the lesson by spending ten minutes practising your times tables either on TTRockstars or by listening to a song on youtube.

<mailto:https://www.youtube.com/watch?v=e7rYbk9PNuM>

Work through the Multiplication powerpoint.

Use the grids to solve your own problems using the dice like we did yesterday. For those of you that still find times tables tricky use the multiplication grid to help you.

Do as many as you can until you are confident using this method. And then complete the multiplication sheet.

For those of you that would like to move on to 2 digit by 2 digit watch me explaining on the video blog and have a go at completing the extension sheet.

Now look at the 'spot the mistake' sheet - who has the correct answer? What mistake was made?

PE

If you were in school today you would be having a PE lesson - so spend some time this afternoon doing something active. Maybe you could do a Joe Wicks workout or go for a walk (or a run!)

Spend the rest of your afternoon reading a good book - or catching up on your reading of cosmic!
