

# Marvellous Maths Year R

Learning objectives:

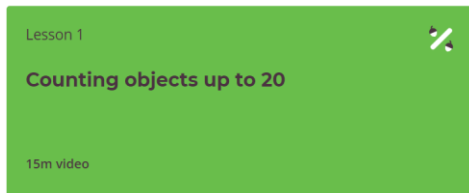

- Counts an irregular arrangement of up to 10 objects
- Says the number that is one more than a given number
- Finds one more or one less from a group of up to 5 and then 10 objects.

ELG: Children count reliably with numbers from one to 20, place them in order and say which number is one more or one less than a given number.

## Monday

Download from the resources section or make a number line to 20 then click on the link below and watch the first lesson "Counting objects up to 20".

<https://classroom.thenational.academy/units/numbers-within-20-edc2>

*Follow on task*

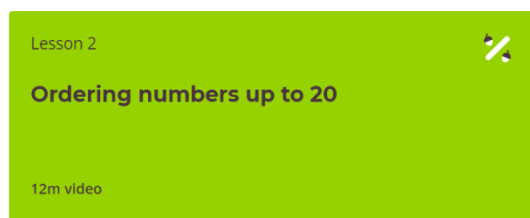

In the resources section please find "I spy" to 10 and "I spy" to 20. Choose whichever level your child is working at. Alternatively ask you child to count different objects around the house.

Your child could also make their own number spoon puppets and sing along with the teacher in this video!

## Tuesday

Click the link below to watch the second lesson "Ordering numbers to 20"

<https://classroom.thenational.academy/units/numbers-within-20-edc2>

*Follow on task*

Make a set of number cards from 1-20 and shuffle them (as in the video). There are ready-made number cards in the resources on the website if you'd prefer to use these. Ask your child to put them in order. They can use the number line from yesterday to help them and then build up to doing it without the number line. If your child is unsure of numbers to 10, focus on these first.
