

Away We Go!

You Will Need:

Paper

Markers

Postcards or photographs (optional)

Activity

This activity can be used to plan an excursion or to serve as a record of a day-trip out into the community or even a holiday. If creating the brochure before a trip, use the library to gather information about the destination. You can also go to a travel agency to pick up some sample brochures. Then, help the child to create his or her own brochure (using computer software if appropriate) that might convince someone else to choose that destination as an excursion.
