

Are you kept awake at night by the sound of dragons crunching bones?

You will need: a magical spade, a brown sheet, some leaves and sticks, plus a large lump of tasty meat.

First, dig a deep pit and make sure it is big enough for your dragon.

Next cover the pit with a brown sheet so that your pit is hidden.

After that, scatter on the leaves and sticks because you want your dragon to be fooled.

Finally place the large lump of meat on top to ensure the dragon come near the trap.

Now tiptoe behind a tree and wait.

In the end, the dragon will not be able to resist the temptation and will therefore fall into the pit.
