## Quick quiz

- How does the Maya view of dreams differ from ours?
- What is your impression of Max now?

# Quick quiz - Answers

- The Maya believe that dreams are where your spirit can do the impossible, go anywhere, heal themselves and receive visits from their ancestors.
- I find Max quite a frustrating character, as he always seems to need to learn the hard way. He has changed as a character for the better, but he is still ignoring the rules and advice from his friends. He is still unable to think of the others around him, in particular Lola and Hermanjilio. However, he just wants to save his parents.

# **Starting your leaflet:**

Today you are going to start designing your leaflet. I have posted a couple of video tutorials on Publisher [here](#), to show you how to get started. If you are using Word or making a paper version, the same will still apply, but you will have to add your title, sub-headings and images wherever you would like them to be.
