## Tuesday - Reading

1. Read or listen to the text Chapter 12.
2. Write down any words that you are unsure of.

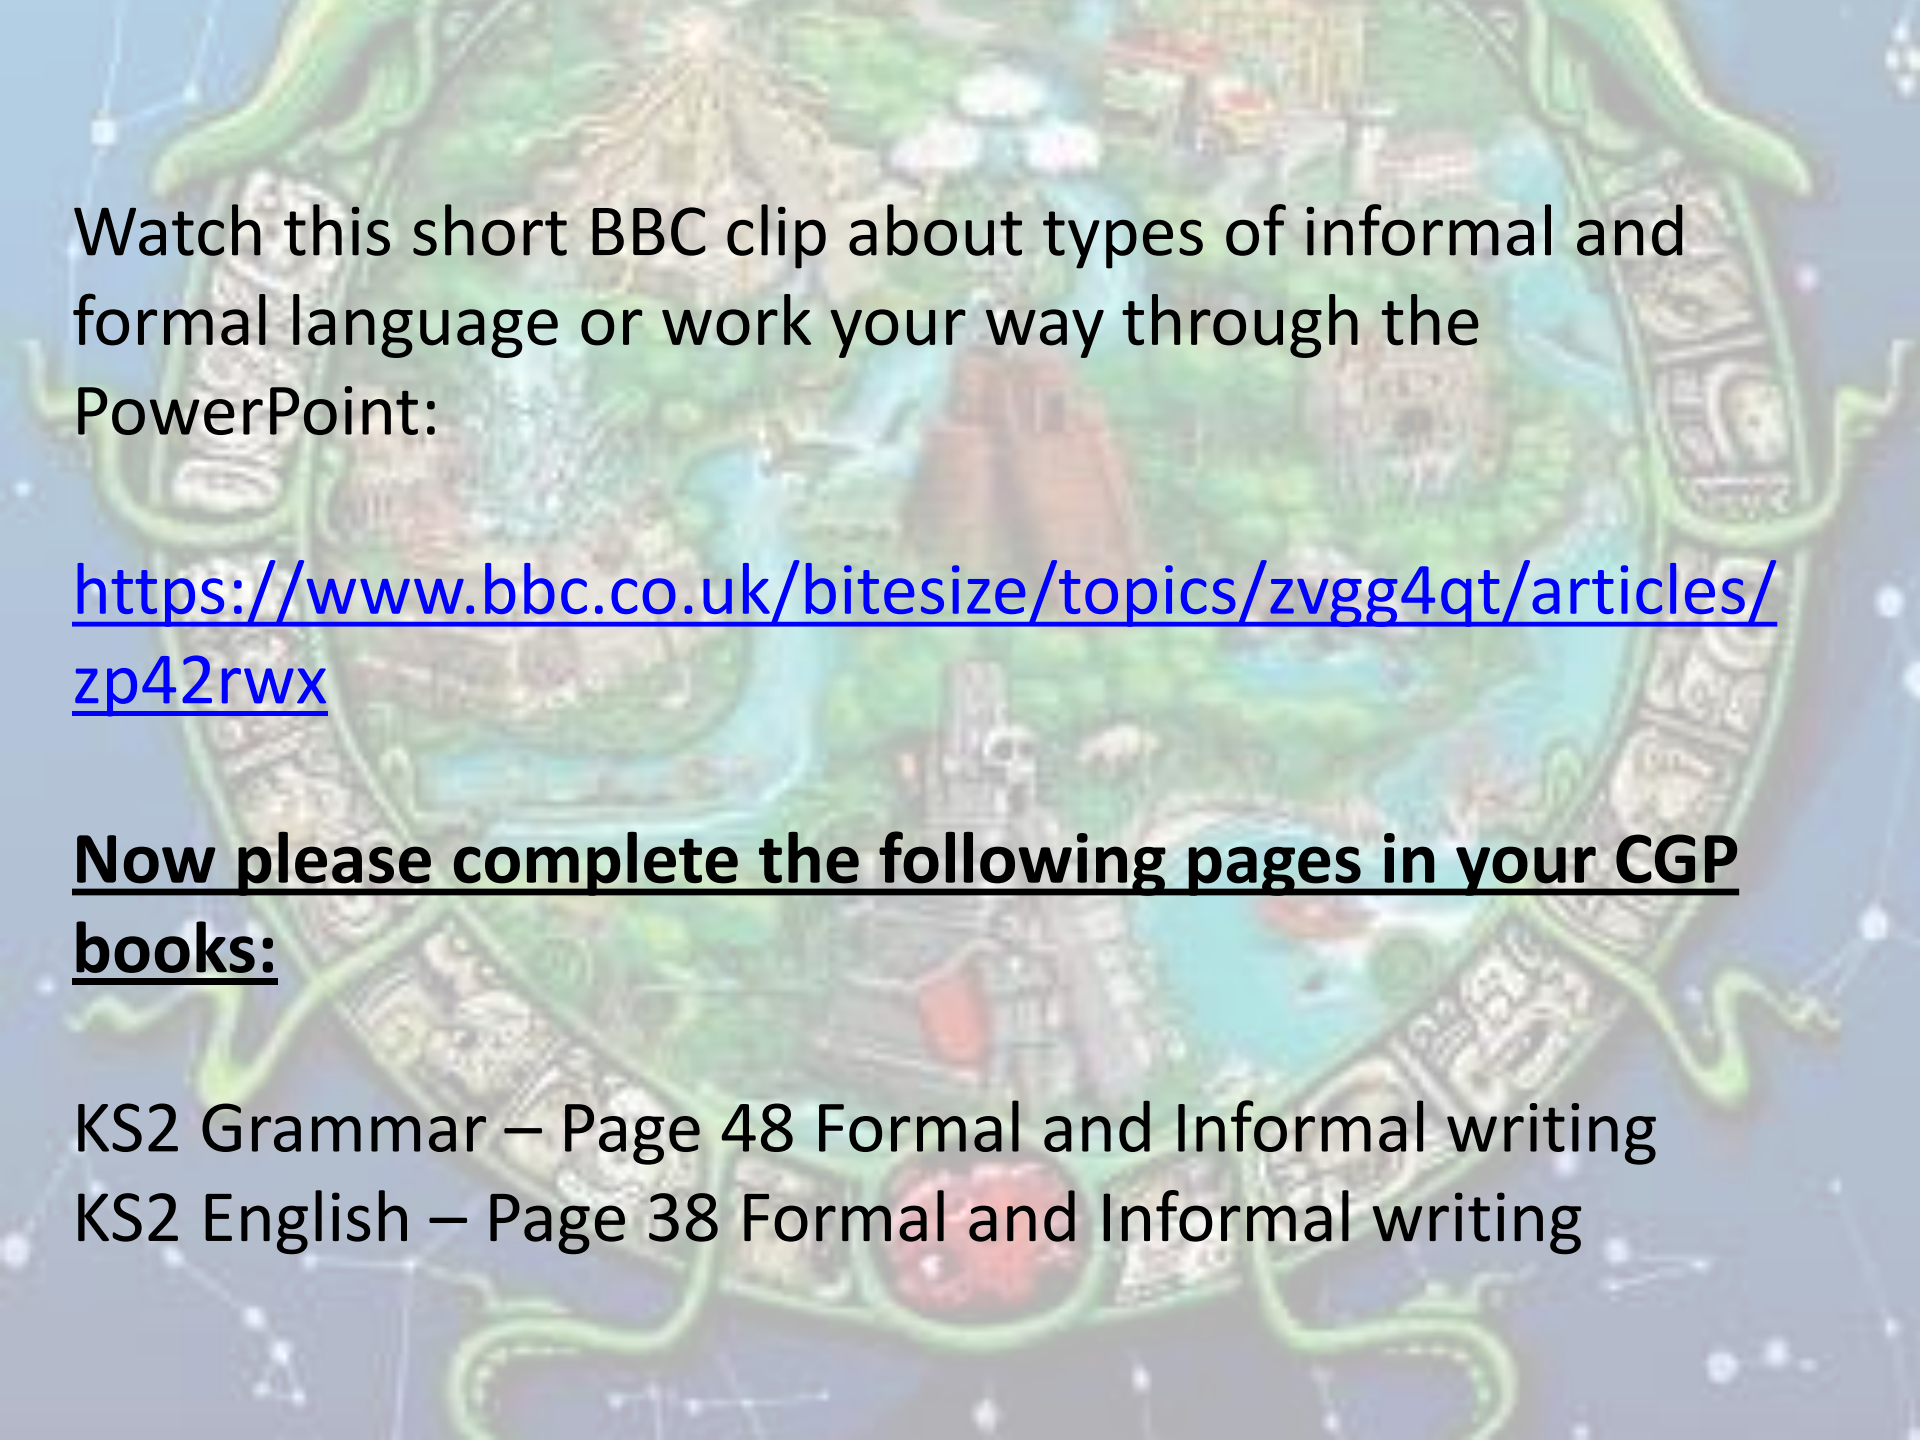

## Quick quiz

- When Max gets to the village, he remembers Zia from Boston. Why do you think he's wondering about her, and how might she be connected to what's happening to him now?

# Quick quiz - Answers

- All the little bits of information he knew about Zia started to come together for him. She used to ‘whisper in some strange language’, Zia was the one who had given him the video game ‘Pyramids of Peril’ and he had found her kneeling with ‘pebbles maybe and bits of corn’ with his mother’s figurines arranged around it all, like they did at Utzal. He also now knows that Zia had arranged for him to fly out to find his parents. She is linked to all of this. Maybe she is Maya, maybe she only lived with his parents to help them with their quest to find the Jaguar Stones.

Watch this short BBC clip about types of informal and formal language or work your way through the PowerPoint:
