

TYRANNOSAURUS REX

Holes in the skull made the head lighter and easier to carry around.

Super strong sense of smell, so it can identify its pray.

Excellent eye-sight to spot movement from its pray... more than double that of an eagle!

A strong sense of hearing, especially at low frequency.

Tiny, 3 feet long arms, at least 3 times stronger than humans.

Large, 3 foot long feet used to support their heavy body weight.

Large, sharp teeth, as big as bananas, to pierce and rip meat.

Large mouth and powerful jaw to bite, grip and crush its pray.
