

Ordering Decimals Game

Click on the link below

<https://www.topmarks.co.uk/maths-games/7-11-years/measures>

The screenshot shows the Topmarks website interface. At the top, there is a navigation bar with the Topmarks logo and icons for a rabbit, a basket of eggs, and search resources. Below this is a social media sharing bar with buttons for Facebook, Pinterest, and Twitter. A horizontal menu allows users to select age groups: 3-5 Years, 5-7 Years, 7-11 Years (highlighted), and 11-14 Years. A red banner below the menu reads "Play these fun Maths Games for 7-11 year olds".

On the left side, there are icons for "Maths" (a rabbit with a clipboard) and "English" (a rabbit with a book). Below these is the "IXL Maths Practice" section with buttons for Year 1 through Year 6.

The main content area is titled "Choose a Category:" and lists various math topics. The "Measures" category is highlighted in a blue box. Below this, the "Measures Games" section is introduced, describing free numeracy games for Key Stage 2 children. A specific game, "Coconut Ordering", is featured with a preview image showing coconuts with numbers 50, 90, 30, and 20 on a table. The game description states: "Compare and order different numbers, including decimal numbers, and metric quantities involving length, mass, capacity and money." A "Tablet-friendly" badge is also present.
