

WB 4.5.20

Wow! We can't believe it's May already! We hope you are continuing to enjoy your home learning activities. Don't forget to post some of your lovely work on the class blog as we'd love to see what you've been up to! We are checking the blog regularly - please have a look and upload something so that we know that you are able to get on and if you're having trouble please email for support.

It was lovely to see some of you in our online chat this week. This will happen weekly at 11am on Thursdays. Check your emails for joining instructions.

Online Maths sessions with Miss Green will start this Tuesday morning at 10am. You should already have the joining instructions, which were sent out to all parents last week, but if you need them again or have not received them, please feel free to email Miss Green on

R.GREEN@BURITON.HANTS.SCH.UK .

V.E Day

This week is a rather special week as on Friday it is the 75th anniversary of V.E day. So, as a whole school, this week for our topic work we will be focussing on lots of activities to celebrate this. We have included lots of lovely poppy art work as well as ideas to have your own street party at home!

English activities can be found on PDFs on the Emeralds page. Further to these, could you create a poster reminding people to have a 'lockdown' front garden party for VE Day 2020?

Maths activities can be found on PDFs on the Emeralds page. There are some fun problems - look through and see which is your level - as well as some code breaking and fun activities.

There are pre-saved videos for you to use, including a KS2 History lesson on VE Day in the 'video centre' which is under the children tab and home learning. Scroll to the bottom to find links for the 'video centre' and the 'class blog'.

[BBC Bitesize for Maths and English.](#)

We recommend using the BBC Bitesize website for a straight forward way of delivering a daily Maths and English lesson. Having two children at home, Mrs Rose has trialled these and has found the daily lessons to have excellent content and clear instructions. The lessons include videos, games, PowerPoints and worksheets. All the previous weeks lessons are on the site, should you wish to revisit any areas for revision purposes. They are uploaded daily and are very easy to follow without much preparation on your part. Mrs Rose's two are thoroughly enjoying doing them!

You can reach these by visiting

<https://www.bbc.co.uk/bitesize/tags/zncsscw/year-6-and-p7-lessons/1>

The maths activities for the next two weeks on this site are focussing on Fractions. We have included some extra activities and challenges to support this.

The English activities are a mixture of spelling, grammar and punctuation as well as reading and writing.

[Purplemash.](#)

Each child also has their own login for <https://www.purplemash.com/sch/buriton> which contains online activities for all areas for the curriculum. They have had experience of this website in the classroom. If your child has forgotten their login, please don't hesitate to email us as we can provide it for you.

Don't forget to look at the other websites, listed on our class page, for ideas for other daily activities.

[CPD Books for Maths, English, Spelling, Grammar and Punctuation.](#)

We know that you have made good progress with these and some have done more than others. Please continue working through these daily at you own pace.

Also, read daily and continue working on TTRockstars.
